

The Whalley Range Community First Fund is now open for the final round of funding

Do you need funding for your group?
You can still apply to the Whalley Range Community First Panel for a small grant to improve your neighbourhood.
New and existing community groups who live in Whalley Range can apply for £250-£1000 for projects that will benefit the area.

The Whalley Range Community First Panel has recommended 26 local projects to the Community Development Foundation to date: that's a total of **£26,444.62** that has benefited Whalley Range residents since the funding programme opened in 2012!

There is only one more round of funding left for this final year: all applications must be submitted by September 26th and projects must be completed by February 2015

If you can think of a project that will benefit your community please get in touch. We would like to encourage a diverse range of projects to apply for this final year, so please pass on to anyone who might be interested.

To apply you must meet at least one of the following priorities:

- Promote local & green employability
- Promote local health & wellbeing
- Promote local community cohesion and involvement
- Champion local environment awareness and community engagement
- Promote local capacity building

You can apply to the Whalley Range Panel if you can demonstrate the following:

- How the project fits with the criteria
- How the project fits and will meet the needs of the community.
- That at least one of the project funding holders live in 'the area of Whalley Range'
- That the project will benefit 'the area of Whalley Range'
